

Here is the MadScience Website that I created using html, sass, css, javascript. It was a bilingual site Dutch and English. The following were created based from 3 sketches provided.

Note these are images of the pages because since launching the site they have decided to make changes to follow the corporate USA site.

[illegible]

Stimulate curiosity after school

After school is the perfect time to stimulate your child's curiosity with all sorts of exciting projects and fun and interactive programs. The kids develop skills that will be useful in the future. Discover and explore from the basics of our courses. Now it's your chance!

VIEW

Sign up!

It's time to sign up for the after-school program! Don't miss the chance to let our about curiosity, science and more!

Happy kids
